## PURCHASE CYBERSECURITY SOLUTIONS – ACCESS-SMART PARTNERS WITH GRYPHON CONSULTING, LLC AS A VALUED RESELLER

LADERA RANCH, Calif., June 12, 2018 — Access Smart LLC, provider of innovative multi-factor authentication, IT Centralized, password management cyber access control systems, announces a reseller's partnership with Gryphon Consulting, LLC, a managed service provider of computer networks, applications, personal computers, and laptops with expertise in Microsoft Windows, Microsoft Windows Server, and Microsoft Office. Gryphon Consulting is now authorized to sell Access Smart's Power LogOn system.

The two companies share a common goal to help reduce the cybercrime epidemic by approaching cybersecurity in a more holistic manner. They are taking a customer-centric approach, by providing solutions that fit the clients' needs, budgets, and specific environments.

The Access Smart and Gryphon Consulting partnership provides Government, Healthcare, Education, and many more with an authentication and logical access control solution that offers fast and hassle-free deployment. Power LogOn was purpose-built to fit onto existing security infrastructure.

"Our technology resellers are a cornerstone of our success, and we're thrilled to join with Gryphon Consulting to provide their customers with an expanded set of authentication, authorization and access control solutions that are both robust and affordable," said Dovell Bonnett, Founder & CEO, at Access Smart. "Together we're helping agencies, companies and institutions safeguard their data with Access Smart's cyber identity management features, such as Multi-Factor Authentication, IT Centralized control, and enterprise password management. Gryphon Consulting's advanced cloud computing, data protection and managed IT services further ensures the protection of confidential data, while offering fast, hassle-free deployment for customers."

Gryphon Consulting selected Power LogOn because the company needed a proven authentication and authorization tool that was flexible and could act as the first line of defense from cyber intrusions.

"This partnership with Access Smart enables us to provide our SMB clients a solution that can be quickly deployed as an additional layer of protection for their corporate data and applications," said Frank Valdivieso, President and CEO of Gryphon Consulting.. "We're very excited to offer secure authorization and access controls for their devices in a package that

does not forfeit security for convenience. Their solutions are powerful, flexible, and greatly reduce the impacts of the cybersecurity problem.”
